

Prudhvi Rajeev Kumar

Developer – 1 Software Engineering

Mob: +91 8093309409 | Email: prudhvirajeev.kumar@ust.com

Summary

- Hands On Experience in developing Python Scripts for automating environment setup, configuration and basic system monitoring.
- Familiar with managing and supporting application environments, with foundational knowledge of system administration concepts.
- Understanding the common application security vulnerabilities and experience secure coding practices using Python, React and Typescript.

Education

- Bachelor of Technology in Computer Science

Technical Expertise

- Python Full Stack

Industry Experience

- Software Development

Certifications

- Oracle Cloud Certified Generative AI Professional.

Professional Experience

- Hands-on experience developing Python scripts for automating environment setup, configuration tasks, and basic system monitoring.
- Familiar with administering and supporting application environments with foundational knowledge of Linux, Windows, and virtualization concepts.
- Managed virtual machines using VMWare.
- Basic knowledge of managing and troubleshooting application services, with exposure to tools used to analyse system and infrastructure issues.
- Understanding of application security vulnerabilities and experience applying secure coding practices in Python, React, and TypeScript projects.
- Experience working on full-stack applications, integrating frontend (React, TypeScript) with backend Python services.
- Exposure to deploying, testing, and maintaining application environments in development and test setups.
